Local Authority Health Profile 2019

This profile gives a picture of people's health in Chelmsford. It is designed to act as a 'conversation starter', to help local government and health services understand their community's needs, so that they can work together to improve people's health and reduce health inequalities.

Visit <https://fingertips.phe.org.uk/profile/health-profiles> for more area profiles, more information and interactive maps and tools.

Health in summary

The health of people in Chelmsford is generally better than the England average. 11.8% (3,550) of children live in low income families. Life expectancy for both men and women is higher than the England average.

Health inequalities

Life expectancy is 6.0 years lower for men and 4.5 years lower for women in the most deprived areas of Chelmsford than in the least deprived areas.

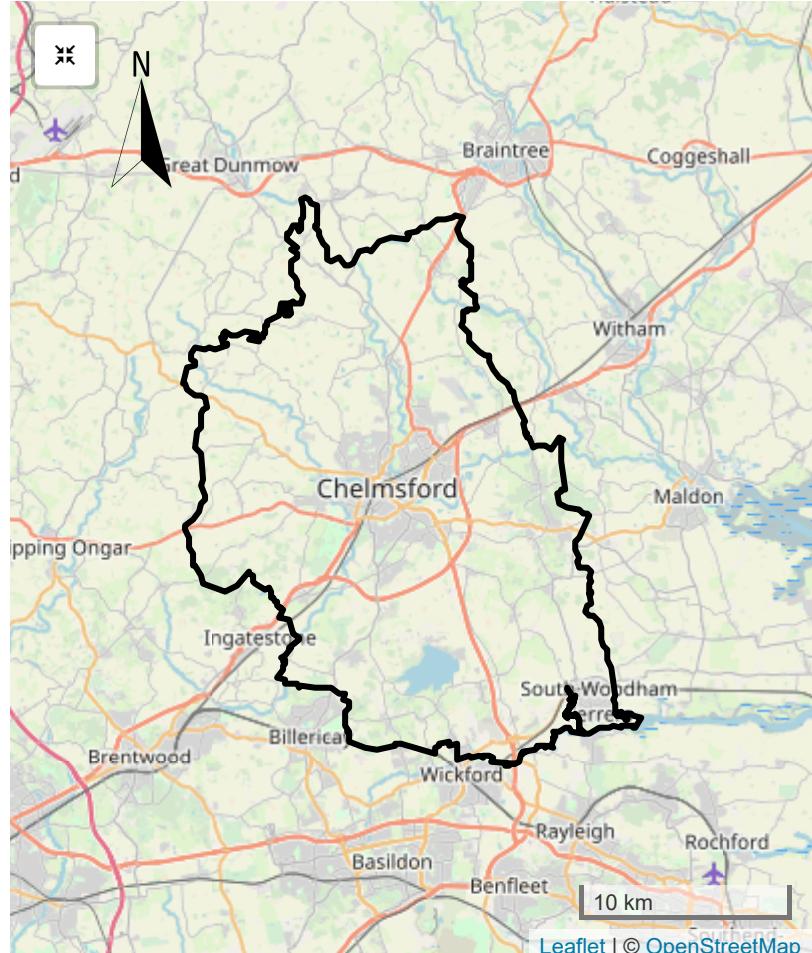

Child health

In Year 6, 15.4% (271) of children are classified as obese, better than the average for England. The rate for alcohol-specific hospital admissions among those under 18 is 17*, better than the average for England. This represents 6 admissions per year. Levels of teenage pregnancy, GCSE attainment (average attainment 8 score), breastfeeding and smoking in pregnancy are better than the England average.

Adult health

The rate for alcohol-related harm hospital admissions is 537*, better than the average for England. This represents 925 admissions per year. The rate for self-harm hospital admissions is 135*, better than the average for England. This represents 231 admissions per year. Estimated levels of smoking prevalence (in routine and manual occupations) are better than the England average. The rates of new sexually transmitted infections and new cases of tuberculosis are better than the England average. The rate of killed and seriously injured on roads is worse than the England average. The rates of violent crime (hospital admissions for violence), under 75 mortality rate from cardiovascular diseases and under 75 mortality rate from cancer are better than the England average. The rate of statutory homelessness is worse than the England average.
