

PATH notes- 13.2.20- Dementia

There is funding available for music therapy. Can look into live music to interact with patients with Dementia.

Essex Dementia Day will be taking place on 22nd April.

Lorraine Mott (ECC) will send over details of relevant funding opportunities.

We should have clear wording about “specialist” input for services, to ensure that people don’t think that we are available for all Dementia care.

We have a gap in service provision when Julie goes on holiday. Can we look into upskilling other nurses for temporary situations?

Priorities according to the PATH group:

1. The Connect Program- the desire for this is high.
2. A dementia friendly environment- this would be a quick win.
3. Extend the service- Julie cannot do everything and there is a lot to do.

Suggestion:

Julie should present these ideas to the Board of Trustees.
