NHS Mid Essex CCG Patient and Community Representative Summit

COVID response update, 20 January 2021

Working together for better lives

Overview

- **Major Incident declared** on 29 December 2020 due to significant demand on hospitals and health and social care services across Essex
- We are still in this incident but are beginning to see COVID numbers decreasing slightly
- Vaccination programme full steam ahead!
- Hospital vaccination hubs, all GP-led sites now live, vaccination centres also opening

System Response

- Assisted rapid discharge of patients from acute beds to safe settings elsewhere including home
- Support requested and provided by UK Army in expanding hospital capacity
- Pausing of some NHS services for up to six weeks to allow more resources to be focused on COVID care and intensive care units in particular
- System-wide coordination with involvement from Red Cross, voluntary services and social care

How you can get involved
