

# GIVING SEX WORKERS A VOICE

We want to talk to people involved in sex work in Essex to find out what works and what needs improvement in regard to their health, care and wellbeing.

If you are currently, or have previously been, involved in sex work, we would like to hear from you in whichever way suits you best; this may be meeting for a face-to-face chat, by phone or email.

We hope to raise awareness of the needs, as well as contribute to improving outcomes, for people involved in sex work, as we understand that there may be additional barriers and issues which affect you accessing and engaging with the services you need.

If you would like to find out more or have a discussion, please get in touch. Complete anonymity is assured.
